With over **3 years of professional experience**, I have worked on various projects **leveraging diverse technologies and architectures**. My routine as a developer involves maintaining, developing new features, and fixing bugs in proprietary or third-party systems.

Having worked for a leading distance learning company, I **develop and enhance end-to-end web applications that are scalable, secure, and user-friendly**, built with best practices in SEO. I am specializing in **C#, .NET**, and its ecosystem tools for backend development, as well as **Node.js, React, Next.js**, and other technologies for frontend development. Additionally, I study and implement solutions using **AWS, Docker, and Design Patterns**.

I have expertise in both relational and non-relational databases and containerization tools, including **MySQL, PostgreSQL, MongoDB, and Docker**.

Professional Experience

Fullstack Developer

Freelancer

10/2023 - Present | **1 year and 2 months**

Development, implementation, and maintenance of third-party systems using various technologies such as PHP, Node.js, C#, and frameworks within their respective production environments. I work on specific aspects of infrastructure and automation, handling end-to-end development by adding new features or fixing errors/bugs.

FullStack Developer

Metropolitan Educação

01/2023 - 04/2024 | **1 year and 4 months**

Development of scalable solutions using a base template with Next.js, GraphQL, and Redis, widely adopted for internal systems (ERP, CRM, and others) as well as external applications (public/client-facing). Code refactoring reduced loading times by up to 25%, while migrations from PHP to Next.js enhanced performance and reliability. Security was strengthened through improvements in authentication and authorization, along with structural SEO enhancements that boosted traffic and conversions for the blog and e-commerce.

Technical Skills

C#	Next
.NET	Astro
AWS	PHP
Docker	Python
Node	Git
TypeScript	NGINX
React	SQL/NoSQL

Soft Skills

- Adaptable and Creative
- Communicative
- Self-Managed
- Teamwork-Oriented
- Problem Solver
- Resilient and Self-Taught

Education

Anhanguera University
Associate Degree in **Cybersecurity** - 2021/2023

Languages

English - Advanced
Brazilian Portuguese - Native

Italian and **Brazilian citizen**.
